

senttell installation directions

*For parents to install the app on their child's smartphone

1

To begin, locate and select the Google Play Store icon at senttell.com. Once in the store, at the top of the page you will see a search bar:

2

Type in the word "**Senttell**" and press enter. You will see two SentTell apps.

Primary application:

Monitor application:

3

Select the primary application first. You can tell this is the primary application by the purple background.

*In order to continue with the download of the application you **must register for a gmail account** if you do not have one.

4

Once selected, follow the on screen instructions regarding download. Once the application has been downloaded you will be asked to accept the app permissions.

5

After accepting the permissions you can proceed with installing the primary application onto the smartphone.

6

After installation completes, navigate to the monitoring app (this is the one with the black background) and select it. Once the monitoring app is selected, it will activate the app to begin monitoring your child.

registration

- Once you open the SentTell application (The purple background) in the lower right hand corner select the icon that reads "register here".
- Once you get to the registration screen enter your name, the email address you want to be associated with the account and the password you would like to use to log in.

login

- Enter the username and password you used to register

Still having trouble? As always you can go to www.senttell.com for a video demo and other frequently asked questions.

settings
